Werner Aisslinger & Tina Bunyaprasit

1970

Since 2007 Werner Aisslinger and Tina Bunyaprasit run Studio Aisslinger together and consistently search for new activities and creative challenges. With the studio Aisslinger in Singapore opened in 2008 they concentrate on technology orientated projects eg with Haier in China and Canon in Japan. Since 2008 they developed a new approach to interiors, spaces and architecture: with collage principles and the symbioses of non-permanent installations and pop-up spaces. The work of studio Aisslinger is exhibited in the permanent collections of international museums worldwide.
